The Safety of Your Students Is Our Primary Concern

OSBIE made simple.

Brimacombe follows all Ontario School Board Insurance guidelines, and, in some cases, even exceeds OSBIE safety standards, giving you one less thing to worry about.

Safety orientation.

Start your students' snow experience with a school visit and brief safety presentation including a short video and Q&A period. *Available upon request.*

From beginner to expert.

Whether it's their first time on the slopes or their 100th, our wide variety of lesson programs and well-marked terrain offer something for everyone.

Check It Out!

- One of Ontario's only loading conveyor systems at our newest chair lift!
- More beginner terrain than ever before!

Graduated lift pass system for controlled terrain access.

Our certified instructors assess your students' abilities and limit their terrain access accordingly. As their abilities progress, so can their slope access.

Re-assessment for pass upgrades is available throughout the duration of all programs.

Controlled access to terrain parks.

If freestyle terrain and terrain parks do not fit into your school's program, access to both terrain parks can easily be restricted upon request.

Award-winning ski patrol.

We believe in providing the best. That's why our highly skilled patrollers are not only trained to react in any situation, they are also trained to take proactive measures, recognizing and identifying risks, as well as promoting safety and injury prevention.

customizable packages to fit your needs

Whether you're planning a day or night trip, Brimacombe's single or multi-visit packages will help you make the most of your ski and snowboard experience.

Safety-Oriented Snow School

Guarantee your students an enjoyable experience that will both improve their skills and feed their enthusiasm.

- We ensure **small class sizes and attempt to keep it to 10 students or less.**
- **All of our instructors are CSIA/CASI certified** and continue to attend sessions and seminars on a regular basis throughout the season.
- Our **graduated lift pass system** helps you ensure that students are on terrain suitable for their skill level. As their abilities progress, so can their slope access.

Affordable Lift Tickets

Save up to **73%** off our published rates when you book as a school group! *Single and multi-visit rates are available*

PLUS

- **Complimentary season pass** for the trip coordinator
- **FREE chaperone lift ticket** for every 10 students
- **Up to 50% OFF** all additional chaperone lift tickets

Quick, Hassle-Free Rentals

Rentals are important, but the slopes are calling! That's why we equip your students in **state-of-the-art equipment** in **less than a minute per student.**

- Students are **pre-measured** on their first visit
- Upon subsequent arrivals, each student's skis will be **preset and ready**
- Provided wristbands will help students easily identify their equipment
